What's in this hospital list?

This is a list of all the hospitals and other facilities that we've assessed and monitor on their quality, value and range of services. For most of our plans and options, you'll need to use a facility in this list.

What's it like staying in a private hospital?

All the hospitals in the hospital list will do their best to make your stay as pleasant and comfortable as possible.

You'll usually have your own private room with an en-suite bathroom and television. You'll be given a choice of food for each course at mealtimes, and there's usually more flexibility about visiting times.

What do I need to take to hospital?

Your hospital will usually send you a list of what to bring, depending on how long you're staying. But please also take along your membership number, which you'll find on any communications we've sent you. You may want to write this down or print it out, as you may not always be able to use your phone.

Does the list change?

We do update the hospital list from time to time. Occasionally, we remove hospitals from the list too.

Where can I find more information?

Each hospital will usually have its own website with plenty of information about how to get there, parking, what to take and other useful details.
